

UK-Sweden Call for Proposals for Joint R&D Projects in Aerospace

Information day – 22nd April 2020

The ATI and Innovair, the Swedish programme for aeronautics, together with delivery partners Innovate UK and Vinnova, have launched a new funding call for aerospace R&D projects. The funding call has been developed to foster R&D projects between the UK and Sweden to advance both countries' pursuit of transformative technology in air transport and builds on the first UK-Sweden funding call launched in 2018. UK and Swedish organisations can apply to develop aerospace technology in partnership. The combined funding matched with industry contributions amounts to £9 million.

This is a unique opportunity to leverage the strengths of both the UK and Swedish aerospace sectors for future growth as the air transport sector transitions to a more sustainable future.

Agenda

Wednesday 22nd April 2020, 13.00 – 15.00 (UK time)
14.00 – 16.00 (Swedish time)

- 13.00 Introduction by chairman Andreas Netz Vinnova
Welcome words by British Ambassador to Sweden, Ms. Judith Gough
- Written statement by Mr. Carl Rosén, Director General from Ministry of Enterprise and Innovation
- 13.10 Introduction of the call
- Background of the call – Scott Pendry
 - Presentation of the funding call – Justin Davies-Trigg
